

Understanding a VISION (glasses/contact lens) exam vs. MEDICAL Eye Exam

In order to provide you with the best possible care, we would like for you to understand what your insurance benefits will cover.

Today, you have provided us with:
Medicare, Blue Cross, Aetna, Cigna, Humana
United Healthcare, or _____
health insurance

Today, you have provided us with:
VSP, EyeMed, Spectera, Davis, Block
or _____ vision insurance

An in-depth medical eye exam will include diagnosis **and** a treatment plan for the following symptoms:

- Cataracts
- Glaucoma
- Dry Eyes
- Eye Pain
- Flashes of Light
- Diabetes
- Eye Infections
- Eye injuries
- Growths
- Lid Infections
- Foreign bodies
- Floaters
- Ocular Migraines
- Medications that Effect the eyes
- Pre-surgery work up
- Post surgery visit
- Scleritis
- Complete medical paperwork

Your **medical** benefits include:
Copay: _____
Deductible: _____
Co-insurance: _____

Due to the limitations of your vision insurance plan, this visit will include basic eye testing in order to provide a prescription for new glasses/contact lens.

If any abnormalities are found or discussed during this exam, the doctor will consult you regarding the need for a medical eye exam using your medical insurance and/or self-payment.

I have read the procedures explained above and understand that should I choose to have any symptoms reviewed that fall under a medical eye exam, 1st Eye Care will file the visit under my medical insurance and it is subject to deductible, co-insurance and co-pays.
